

IB CS(SL)Year End Project – Group formation

1. Identify Strengths and Weaknesses

Create a chart that lists each group members strengths and weaknesses

Team Member	Strengths	Weaknesses
Abby Arroyo	Computer theory Turning things in on time	I have never used github I can only code in Java
Narna Wilairat	Computer Systems and coding theory	Intermediate coding and syntax.

2. Establish Group Communication

- How will you communicate if someone is absent?
 - Over text and through our shared documents. We may email each other things too
- How can you share files electronically?
 - Over Microsoft online we can share the same files in real time.

3. Establish Team Norms – Group contract

Principles of right action, binding upon the members of a group and serving to guide, control, or regulate proper and acceptable behavior.

- u Everyone in the group must agree to the norms
- v You must develop a consequence in case a norm is broken
- w You need at least 3 norms

Norms:

1. Respond to communication the day of.
 - a. If broken: try to contact again and then reach out to in person
2. Submit all parts of project on time
 - a. If broken: turn in as soon as possible
3. Respect each other's ideas
 - a. If broken: have a conversation to resolve issues and then respect the ideas

We, _____ Abby Arroyo _____, _____ Narna Wilairat _____,
_____ as group members of the Software dev. Project _Humane Society Adoption
Program_ agree to follow the above team norms along with class norms to stay committed to
completing the tasks on time and as required.
